

Anritsu X-ray Inspection System	envision : ensure		
	X-RAY INSPECTION SYSTEMS		
	Performance Accuracy Quality Reliability		

The Standard in Performance.

For over 50 years, Anritsu, a global technology leader, has been designing precision engineered inspection systems for the food, pharmaceutical and packaging industries. Around the globe, we provide a superior return on investment while ensuring your company is in compliance with the most stringent HACCP programs. As a single source supplier, no other company can provide better support, experience and technology to detect contaminants and product integrity checks within your product.

With over 10,000 global installations, Anritsu X-Ray systems are built with a commitment to safety and provides the best detection in the industry using our exclusive HD imaging. Anritsu provides an unmatched combination of performance, price and reliability.

Anritsu X-Ray solutions offer:

- Exceptional performance: Anritsu HD Imaging provides the best contaminant detection.
- Superior quality: Precision engineered to the highest world standards.
- Ease of operation: Operator friendly navigation with quick product setup.
- Easy cleaning and maintenance: Designed to disassemble in one minute and diagnostic tools pinpoint errors.
- Flexible solutions: X-Ray inspection product line ranges from economical to custom-built systems.
- · Single source supplier: Same office and technician supports all your inspection equipment.

Discover what you've been missing.™

Anritsu provides a vast range of X-Ray technology solutions to meet your requirements.
